JL, Re Jeanne Davis: There is a reference to her and her affidavit in today's WxPost story on the Halperin suit, "NSC Says Security Would Be Impaired By Release of Data." This casts herm in a different role than that in which we first encountered her name, if you recall my mentioning it to you. It would be good to get a copy of that affidavit and it would be good to keep a sharp eye for other of her appearances, whether or not in litigation or on affidavits. HW 8/6/75 No NYTimes stpry on this today.
